

# How financial advice adds more value to your life than you may realise

## Greater financial certainty

These days, financial protection advice and planning is about more than simply looking after your money and protecting your income. As well as helping you see results in pounds and pence growth, we can also help ensure you are prepared to meet the challenges you may face in life.

Used as a trusted and expert sounding board, we can help by:

- Encouraging you to recognise your goals and establish a financial protection plan to help you, tailored for you.
- Providing you with someone to listen to you and to help you arrive at the right financial outcomes – taking an objective view and way forward.
- Preparing you to deal with unpredictable outcomes you may not have considered, such as premature death, being diagnosed with critical illness or other unexpected life events that change income, savings, or retirement dates that could have a detrimental impact on your desired lifestyle.
- Offering emotional support and guidance to provide peace of mind.

And the value of financial protection advice doesn't stop there.

## FINANCIAL PROTECTION ADVICE

### Financial protection advice is more than just about money. For us, it's personal.

A great financial protection adviser can serve as an objective ear and help you to consider how you would cope financially if you became ill, had an accident or other scenarios. They will discuss your individual needs and priorities, and make recommendations based on these. Longevity and the ability to live your best life are inherent to great financial protection / insurance advice. So, helping you to understand how a healthier lifestyle can help you to achieve your goals is another important aspect of our role. The insurers we work with have practical resources that can support you.

With a wealth of knowledge about healthy choices now available, small changes can improve your quality of life and help you live longer and in better health. The ripple effect of living a good life means adjusting your plan to ensure you have enough financial protection to last for a comfortable future.

### The unseen value of free support services you can access

If something unexpected were to happen, insurance products and policies can provide valuable peace of mind to you and your family. This could include being too sick to work, suffering a life-threatening illness, or death.

In addition, insurance products often also include a wide range of practical and emotional support services. Many of these additional benefits are available at no extra cost and can be used by your family members too. These extra benefits are usually available as soon as your policy starts and remain open to you and your family until the policy ends. This kind of added value is automatically built into your insurance policies but can often be forgotten about or overlooked.

If you're worried about the rising cost of living and want to reap the financial and emotional benefits that speaking to a financial protection adviser can bring, we're here to help. Please get in touch to arrange a time to chat.

### Structuring a sustainable income

Trust is one of the primary drivers of a successful client/adviser relationship. We proactively monitor your needs. Knowing that life can get in the way of even the best-laid plans, we encourage annual review meetings to help you stay on track. These regular reviews will help make sure your needs and circumstances remain aligned with the cover you need.

This helps ensure that you've thought about all aspects of your financial future, including inflation, so that whatever the future holds, you can be better prepared for whatever life might have in store for you.
